

Aguadú Cliffs

One day by chance, I found this amazing place, which is my favourite place in Melilla without doubt. I am speaking about Aguadú Cliffs.

Its transparent waters and views are amazing and beautiful. It's a perfect place to spend a day, have a swim in the sea or just look at the sea and the surrounding area. If you are looking for adventure, this is the ideal place too because it is a perfect spot to go diving under the sea and, furthermore, enjoy jogging and fishing. Whatever the season you can enjoy at this idyllic place, even when it's raining, the views are really stunning.

In addition, not too far, you can find a wonderful pine forest to enjoy a walk, a snack or some celebration. The way to go there doesn't go unnoticed while you are driving along the border with Morocco.

Everybody must visit it if they come to Melilla at least once.
